

CALL FOR PAPERS

Join us for the *7th International Workshop on Secure Hardware, Architectures, and Software (SeHAS)* as we explore the forefront of security research and innovation. We invite leading researchers, practitioners, and administrators from security and related disciplines to contribute their expertise and insights.

SeHAS provides a dynamic platform for exchanging perspectives, sharing lessons learned, and gaining new insights into securing hardware, architectures, and software.

PAPER SUBMISSION

Paper Submission Guidelines for submitting original research articles

- Length:** Up to 4 pages in an IEEE double-column, single-blind, 10-pt.
- Review process:** The review is processed by IEEE Embedded Systems Letters (ESL).
- Publication:** Accepted articles will be published in IEEE ESL.
- Presentation:** Authors of accepted papers will have the opportunity to present their work at SeHAS@HiPEAC 2025 in Barcelona.
- Registration:** One registration per presenter at the HiPEAC conference is mandatory.
- Submission details:** <https://sehas-workshop.github.io/>
- Select the check-box in Step 6 in the ESL submission portal indicating that you would like your paper to be considered for presentation at a conference/workshop that has a tie-up with ESL.

ORGANIZERS

Program Chairs

Lilas Alrahis
Khalifa University
UAE

Silviu Vlasceanu
Huawei
Trusted System Security Lab
Germany

Publicity Chairs

Farhad Merchant
University of Groningen
The Netherlands

Dominik Germek
Corporate Research
Robert Bosch GmbH
Germany

TOPIC AREAS

SeHAS 2025 invites original contributions in all areas of overlap between hardware and software security, including but not limited to:

- Hardware security
- EDA for security
- Architecture-level security
- System security
- Software security
- Embedded security
- Security measurement studies
- Emerging technologies and security
- Machine learning for security
- Security automation

SUBMISSION and DEADLINE

September 15, 2024

September 20, 2024

Manuscript submission

ESL reviews are typically done within 4 weeks
